

Doctor's Availability

This timetable shows the usual availability of the doctors in the practice for surgery consultations. Please remember that for doctors who have fewer surgeries, the wait for an appointment may be longer than for other doctors. Timetables may vary and are influenced by annual leave and study leave.

We offer 'Extended Hours Appointments' (as indicated above in yellow) for patients who would find it difficult to see or speak to a healthcare professional during normal working hours. These are early mornings, evenings (telephone only) and some Saturday mornings. Appointments are also available with members of our Nursing Team each day- bookings must be made in advance.
